

HYDROGEN VALLEYS: TERRITORIES AS AN INITIAL STEP TOWARDS THE DEVELOPMENT OF THE HYDROGEN CHAIN

ROOM F

6 OCTOBER 2021 | 14:30 - 17:30

The development of ecosystems where the production and local use of hydrogen coexist at the same time will help to reduce the costs of hydrogen applications, promote new business models and generate new opportunities, especially for the territories. This is the concept of the Hydrogen Valleys - places of strategic interest, where multiple end uses of hydrogen coexist synergistically, favouring new opportunities for local development, and decarbonisation opportunities, thanks to the development of innovative projects related to hydrogen technologies.

CHAIRMAN **Cristina Maggi** - *Director H2IT-Italian Hydrogen Association and Fuel Cells*

SPEAKERS

Gregorio Barbieri - *Directorate for Development, European Programmes and Innovation of ADSP-MTS*

Andrea Bos – *President, Hydrogen Park Venezia*

Fabrizio Botta - *Global Sales & Strategy Director - E&C Onshore Division, Saipem*

Federico Colombara - *Partner and Associate Director BCG*

Alessandro Delli Noci - *Councillor for Economic Development, Puglia Region*

Dario Furlanetto - *Director Parco Adamello*

Thomas Klauser – *Communication Manager, H2-Alto Adige*

Gabriele Lucchesi – *Hydrogen Director, Edison Spa*

Giulia Monteleone – *Head of the Laboratory of the Accumulation of Energy, ENEA*

Marco Piuri - *General Manager FNM and Ceo di Trenord*

Benedetta Salvati – *Councilor, Comune di Terni*

Alberto Sogni - *Clust-ER Greentech, Emilia-Romagna Region*
